A printable set of designed pages with art and media from the community, inspired by zines, origami and printmaking, that can be exhibited in any of your own spaces, such as your living rooms, a favorite cafe, a parks, etc...

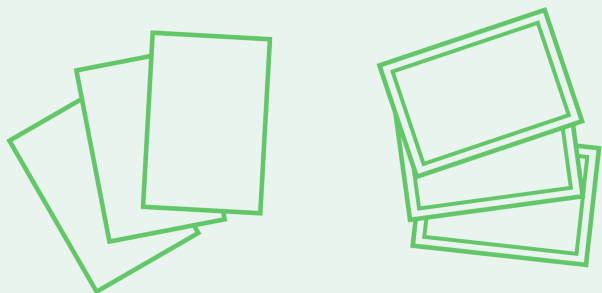

ASKING FOR DONATIONS

ANY MEDIA IS POSSIBLE TO PRINT

Images of a painting, sculptures, drawings, photos, poems, essays, films, videos, songs, sound arts, mixed media, new media, AR works, etc...

Asking for donation of works from artists and creatives. It can be art that is not intentionally created for exhibition purposes, something forgotten on your hard drive, a dusty prototype in your storage, or just a sketch that holds a special place in your heart.

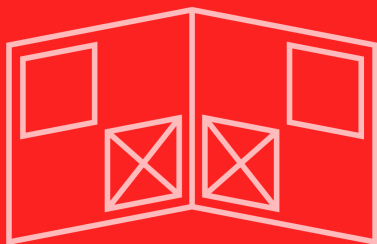

EVERY STORY, EVERY ARTWORK IS A MASTERPIECE

No curation. No deadline. We will close the request for this upcoming exhibition when we receive enough. Future submissions will go towards future releases.

The first Print Kit Exhibition will be held in March in Yangon, Myanmar and Chicago, USA.

The POP-UP PRINT KIT: BUILD YOUR OWN EXHIBITION is a project bringing the exhibition space into a neighborhood coffee shop, a local community space, or a friend's apartment—anywhere with a printer. Drawing inspiration from zines, origami, and printmaking, we are designing an exhibition that will feature art and creative works from a variety of artists and spanning many forms that can all be printed.

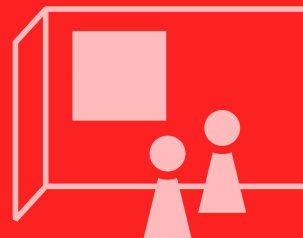

1. A foldable tabletop visual art gallery

2. AR cards with scannable QR code

3. A paper snack box to pair with videos

4. Hang up printed photos on a wall

This project will be a space to explore the relationship between the physical and the virtual, the bridge and process that is manifested via the printer, creating a new space that holds elements of both as well as what's in-between. It is also a space to reclaim art spaces to your self and your community by building and hosting your own exhibition within your respective community spaces.

It is a project we hope to be expanding with respective agents (we call them human printers) hosting print kit exhibitions in their own towns and countries. To be a human printer, you just need to download the PDF print kit file we have designed and host your own gathering!

CALL FOR DONATION

Please send us your poems, drawings, paintings, photographs, sound pieces, films, videos, songs, digital art, 3D art, short stories, creative essays or anything that you've created that you are interested in sharing.

To submit - please submit at least 2 pieces of your work with an artist statement or description about it via

<https://forms.gle/NkhothjowksPprVi7>

(The link is also available at popupprintkit.com.)

POP UP PRINT-KIT: BUILD YOUR OWN EXHIBITION in Yangon, Myanmar and Chicago, USA is occurring on March 2024. To be able for us to design your works into a printable version, we highly recommend you to send us your works by January 31st, 2024.
